iEi Products Product Change Notice

Phase-out Model: SPXE-9S-R10 & SPE-9S-R10

Status: Running Change

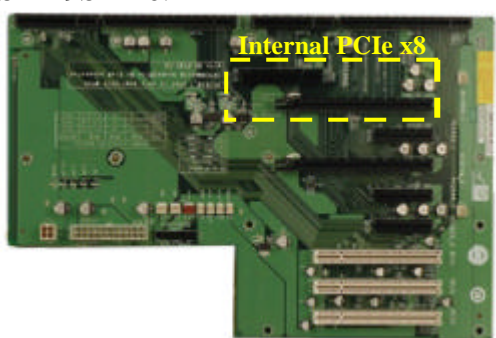

Dear Partners,

iEi appreciate you daily support on IPC business.

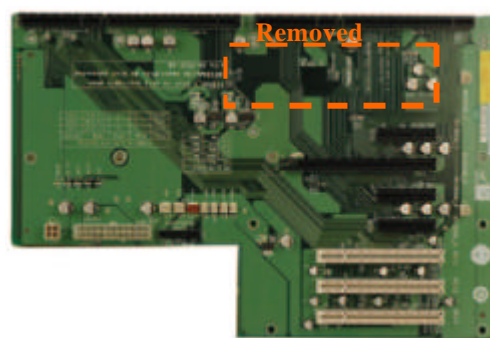

We would like to notify you for the phase-out models will be replaced by SPXE-9S-R11 and SPE-9S-R11. Because of the two particular internal PCIe x8 slots which were used for the end product SPCIE-3200AM2, they should be removed on current backplane boards to avoid any concern about their functionality. You can refer to the comparison pictures as below.

Phase-out Model	Replacement Model	Remark
SPXE-9S-R10	SPXE-9S-R11	Remove useless slots
SPE-9S-R10	SPE-9S-R11	

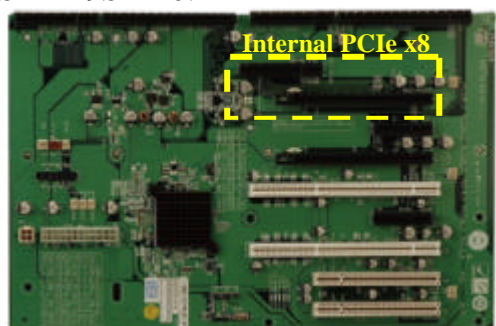

SPE-9S-R10:

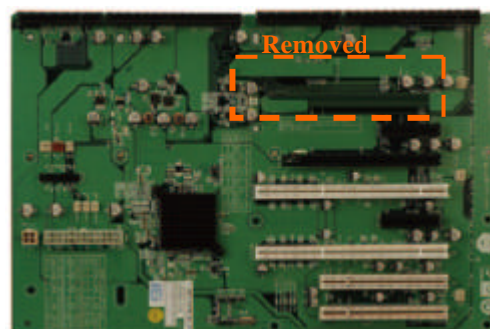

SPE-9S-R11:

SPXE-9S-R10:

SPXE-9S-R11

Thus, the configurations of replacement R11 model are as follows after remove connector change as follows.

Model Name	Configuration
SPXE-9S-R11	7 slots PICMG 1.3 backplane with 1 PCIe x16(x8 signal), 3 PCIe x4 and 3 PCI
SPE-9S-R11	7 slots PICMG 1.3 backplane with 1 PCIe x16(x8 signal), 2 PCIe x4, 2 PCI-X and 2 PCI

However, please do not hesitate to contact us while you have any further comments.

*Yours Faithfully,
Duke Hsieh
