Dear Partners,

iEi appreciate you daily support on IPC & Mobile business.

We would like to notify you the product change notice for the following models and list the replacement models as below.

Therefore we phase out the **MODAT-328-WB65-En which use the TI RFID IC and merge the MODAT-328-Felica-WB65-En to MODAT-328-WB65-En-R11** to replace these.
