

## iEi Products Product Change Notice

**Phase-out Model:**

IMBA-Q670-R21  
 IMBA-C2060-R10  
 IMB-Q670-R21  
 IMB-C2060-R10

**Status:** Running Change

Dear Partners,

iEi appreciate you daily support on IPC business.

We would like to notify you for the phase-out model will be replaced. Due to the USB3 IC & Audio Codec IC EOL, iEi changed the USB3 IC from NEC UPD7202 to ASMedia ASM1042 for USB3 functionality, changed the Audio codec IC from Realtek ALC888 to Realtek ALC892 for audio function. This change of product will not impact your mechanical solutions. Moreover, the SATA connector on IMB-C2060 has been changed from 90° to 180° due to the connecting inconvenience. Furthermore, BIOS of IMBA-C2060-R20 and IMB-C2060-R20 has been updated because of the new version BIOS has capability for supporting both Sandy Bridge and Ivy Bridge.

**Product change table:**
