

Product Change Notification

PCN#: CIF-P20160201

Subject: Product Change Notice for Cervoz Industrial Flash Modules

Form Factors: 2.5" PATA SSD, CompactFlash Card

Reason for Change: Since Toshiba upgrades MLC NAND Flash process from A19nm to 15nm, therefore Cervoz adopts the new Toshiba flash technology and announces a "Product Change Notice" of all related products.

Description: The hardware design, controller, and all other components are exactly the same as the current products. Regarding device parameter, all replacement models have the same function, C.H.S. and LBA value; customers can easily switch the Cervoz flash products in the current applications with the replacement models. Cervoz' flash product families remain unchanged (e.g: M120, R120), however the P/N are changed to the 15nm naming.

Last Purchase Date: 2016.04.30

Last Shipment Date: 2016.07.30

Families and Form Factors Affected:	
M120 Family	R120 Family
2.5" PATA SSD	CompactFlash Card
CompactFlash Card	

Please note:

- 1) Replacement models are available now, please refer to attached excel file for the corresponding models.

Cervoz apologizes for any inconvenience caused.

Sincerely yours,

Niki Chiang
