Industrial Cellular Router Products

Date Issued: July 1<sup>st</sup>, 2020

## Xiamen Ursalink Technology Co., Ltd.

### Product Discontinuance Notice

Dear Ursalink Customer,

Ursalink recognizes that technology development and product evolution is vitally important in allowing our customers to maintain a competitive advantage in their respective markets. In order to ensure that our customers have access to the most efficient designs, **Ursalink may periodically discontinue older products**. While product end of life (EOL) is an established part of the overall product life cycle, we understand that product discontinuation impacts our customers' business and we are committed to providing all the necessary after-sales services and warranty services for both projects and distribution channels.

**Ursalink has introduced the industrial cellular router UR3X series product to replace the older UR5X series (UR51, UR52 and UR55 with all optional settings), in order to achieve better performance, reliability, and cost structure. In the mean time, Ursalink is announcing the discontinuance of both UR71 and UR72 with all optional settings, UR75 model will continue to develop, become 4G and 5G separate capable models in the near future. .**

The after-sales services and warranty services will be still available for the existing distribution partners and project partners. **For customers who are using older models in projects, Ursalink will continue to provide the exact same model/series product for 3 years until the project completion.**

Ursalink

## Xiamen Ursalink Technology Co., Ltd.
