

Ursalink UC11-T1 End of Life Notice

Dear Customer,

Thank you for your support of Ursalink products.

We would like to inform you that we have made difficult decision to discontinue the manufacture of UC11-T1 Temperature and Humidity LoRaWAN sensor. This notice takes effect on **Nov 25, 2020**.

We plan to maintain and repair your device **UC11-T1** after the date of this stop production notice. Please also be informed that this period may change due to the availability of device parts.

The services offered by, for example, ToolBox and Ursalink Cloud will still be available for UC11-T1. At the meantime, we will also recommend functional product equivalents as appropriate such as **EM300-TH**.

We sincerely apologize for any inconvenience caused by the discontinuation of UC11-T1 Temperature and Humidity LoRaWAN Sensor.

Thank you for your understanding and support.

Yours Sincerely,

Ursalink Team
