

Technical Notice

Issue Date: March 17, 2021

<p>Product Name: DRPC-120-BT Series</p>	<p>Implementation Date: March 17, 2021</p> <p>Implementation Type: Implement on next production</p>
--	---

This notice is to inform you of changes to the DRPC-120-BT series

Reason for Change

Realtek announced the End of Life (EOL) of ALC662 Series 5.1 Channel High Definition Audio Codec IC due to the shortage of wafer and promptly FAB capacity issue.

Description of Change

Removing DRPC-120-BT series audio function.

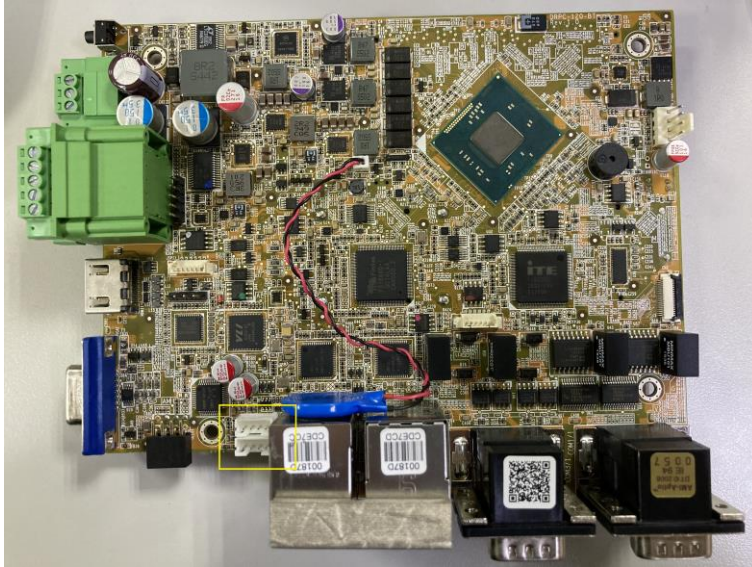

Removing Audio Codec IC ALC662-GR and other related electronic components and connectors by BOM change.

Remarks

1. Original product had no audio jacks on external I/O interface:

LED SKU	OLED SKU
 <p>The image shows the LED SKU of the DRPC-120-BT series industrial PC. It is a black, vertically-oriented device with a blue front panel. The front panel features a DIN connector at the top, followed by a power button, a display, and several ports including USB, Ethernet, and serial ports. The text 'DIN RAIL PC' is printed vertically on the left side of the front panel.</p>	 <p>The image shows the OLED SKU of the DRPC-120-BT series industrial PC. It is a black, vertically-oriented device with a blue front panel, similar to the LED SKU. The front panel features a DIN connector at the top, followed by a power button, a display, and several ports including USB, Ethernet, and serial ports. The text 'DIN RAIL PC' is printed vertically on the left side of the front panel.</p>

Audio connections were reserved with internal pin headers:

(DRPC-120-BT motherboard)

2. For customers preferring to retain audio function, please do not hesitate to contact your sales representative for customization.

Affected Model

DRPC-120-BTi-E5-LED-R11
DRPC-120-BTi-E5-OLED-R11
DRPC-120-BTi-E5-LED/2G-R11
DRPC-120-BTi-E5-OED/2G-R11

Affected by This Change

- Specifications Dimensions Appearance Package
 Certification Label BIOS Driver
